

# THE TRAIL RIDER

JANUARY 2025 VOLUME 51 No. 1 OKLAHOMA EQUESTRIAN TRAIL RIDERS ASSOCIATION

## Happy New Year's Day Ride with Black Eyed Peas Lunch

Due to boggy trail conditions, the ride is back to the south side/Flat Rock Bell Cow equestrian trailhead. Ride out on your own schedule. Lunch will be ready at Noon at the pavilion. Blackeyed peas, cornbread, dessert, and drink for \$3. Come join us! There are 12 miles of trails out and back. No shoes required. **START the NEW YEAR the right way... ON AN EQUINE!**

**President's Message**

News years resolutions...

Why do we even make them? Does January 1 really mean we're going to change? We're going to do all those things we've been saying we were going to do? And when it is January is anything different? Really??

I have found I need motivation, a reason, a catalyst to get me to do the things I know I should be doing all along. Sometimes the loss of something is stronger than the gain. We don't want to lose our trails across the state so please get involved in helping keep them open.

The board will be meeting January 4th to set our calendar for 2025. I hope you'll plan to attend as many rides, workdays, and events as possible. Our Trail Ambassadors will be making plans soon to put events on the calendar and we really need to support them in all they plan. It can be very discouraging to have people ride the trails but never show up to help clear them or show up for an organized ride. Keep the golden rule in mind.

The Christmas party was a success with 80+ people and \$2500 in revenue. We always have so much fun seeing our friends who live across the state. There were really nice items donated and I want to thank everyone who brought things to sell and everyone who bought things. It all goes back into the club to help with trails.

This is such a unique club. We are a group of all kinds of equine lovers. Some ride mules, some horses, and even some ride donkeys. Some ride fast and long, and others ride slow and short. But whatever you are, there is someone else in

the club that is the same. So many friendships have been made that give you people to ride with, camp with, and even travel with. We are spread across the whole state and represent a hobby that used to be very common but is becoming more scarce.

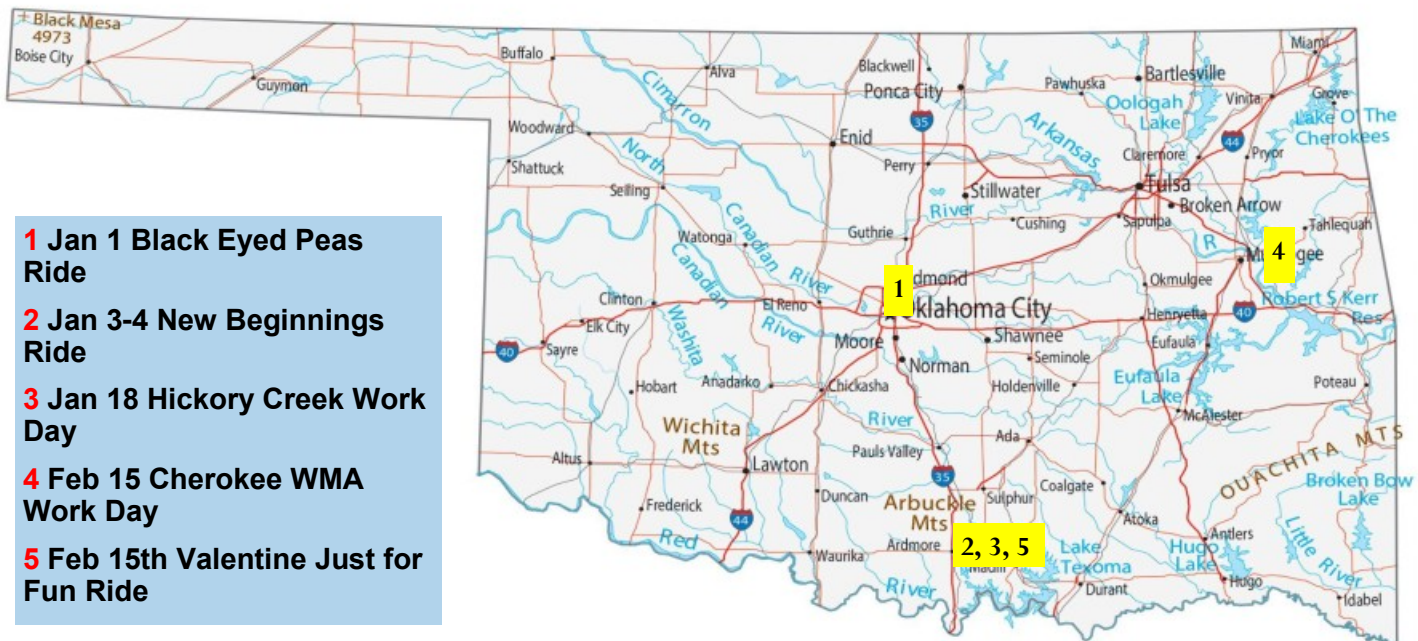

For those of us who still want to have places to ride at our convenience it is so imperative that we stay vigilant in keeping the trails worked and make sure those that govern the trails know we are dedicated to being a part of helping keep the trails maintained.

We have 500+ memberships. If we can keep growing it will reinforce how important we are in the state and will not be forgotten. Encourage every equine owner you know to join OETRA. We really need to band together to create a large coalition to represent the future we want in trails.

Jeanette

Look around today till you find something to smile about.

## Looking for Trail Ambassadors for

- ◆
- ◇ Bell Cow Lake, Chandler
- ◇ Draper Lake, Midwest City
- ◇ Kaw Lake, Ponca City
- ◇ Heyburn Lake, Sheppard Point, Kellyville

If you live close to any of these and would like to help keep them open and rideable please consider being our TA. We would appreciate any help possible.

## Cherokee Wildlife Management Area

Happy New Year to all! Several of us are planning an OETRA work day for the Cherokee Wildlife Management Area on February 15, 2025, weather permitting. CWMA is a state public hunting area of more than 16,000 acres, located in Cherokee County between Muskogee and Tahlequah. It is a beautiful place to camp and ride during non-hunting seasons. We hope you can join us to do some trail clearing and refreshing the trail markers. More details coming soon!

**EQUISURE NOTICE:**  
**2025 Rate Increase!**  
 Single: \$25  
 Family: \$50

## TIPS AND TRICKS!

- ◆ When its cold out horses tend to stand and eat all day and not walk to get a drink. Pour 1/3 cup of corn or vegetable oil on their food. It keeps them from getting impacted and prevents colic.
- ◆ Also adding salt daily will encourage them to drink as well.
- ◆ Digesting hay keeps horses warm so keep plenty of fresh clean hay available with clean water close by.
- ◆ Hang gallon cans on the wall in your tack room to hang bridles and halters on. It keeps them from getting out of shape and the leather cracking.

## THE SCOOP ON POOP

For horse people, manure is part of day-to-day life. For people who do not have experience with horses, manure can appear dirty and even toxic. When they see it on a trail or roadway, they may become fearful that the manure will transmit diseases in the same way that dog, cat or other animal leavings can. This article offers a few talking points to alleviate these misplaced fears.

- Horse manure is comprised of 70 to 80 percent liquid and 20 to 30 percent solids. The liquid portion absorbs quickly into the ground. The majority of the solid portion – mostly grass and forage leavings – breaks down in the first six days.
- Horse manure is biodegradable, natural and contains no petroleum or animal byproducts. Horse manure is an excellent fertilizer and can improve soil conditions. (Continued on page 5)

## Prayer Requests

This month please pray for:

**Teri Wyatt and Family** - for the death of her father, Odell Clark

**Gill Barnett and Family**, for the death of her beloved brother, Alan.

Please send prayer requests to any board member

**YOU CROWN THE YEAR WITH  
a BOUNTIFUL HARVEST; even  
THE HARD PATHWAYS OVER-  
FLOW WITH ABUNDANCE.**

**PSALM 65:11**

## POOP

**(CONTINUED FROM PAGE 4)**

- There are no known toxic effects on humans due to exposure to horse manure.
- The Environmental Protection Agency excluded horse manure from solid waste regulation because it contains neither significant amounts of hazardous materials nor exhibits hazardous characteristics.
- Horses do not carry any of the 120 viruses and pathogens that create risk for humans from carnivore and omnivore species.
- The pathogens that do exist in horse leavings require ingestion to create a health risk, typically abdominal discomfort.
- Most of these pathogens have very short lifespan on the ground, meaning the risk of infection through ingestion is very limited.
- No record exists of horses transmitting any disease to humans.

## Arcadia Lake Workday by Terri Folks

Thanks so much to our wonderful group of volunteers who gave up their Sunday afternoon on Dec. 14th to

work on the equestrian trail at Arcadia Lake in Edmond. Kate Kearby brought a group of 6 teens from 4H and Piedmont who picked up trash and then rode/trimmed the trail. And the mighty trail crew including Jimmy Carlton, Kim Carlton, Sherry Robinson (who came from Coweta!), Eva Lambert, Shirley Davies and Lee Tyner who worked their tails off. Jeanette Zeller and Larry Zeller who we didn't get to see but they worked the far side of the trails

We had chainsaws, chompers, pole saws, pruners, etc. and atvs/utvs allowed for the very first time! I can't thank them enough!!! Sherry Robinson brought a yummy chocolate Texas sheet cake that we enjoyed when

we were back in the parking area.

We knocked out a bunch but didn't quite make it to the end. When we get time, we will get the rest done by horseback.

I just wanted to give a shout out to Brady Nevels, who is one of our newer volunteer Facebook page moderators.

Brady has been such a huge help with our huge Facebook page. He takes his "job" very seriously and has made a big difference with having almost 6,000 people on the OETRA Facebook page.

It is a little like herding cats. Thank you Brady for your volunteerism!

# Updates from Hickory Creek By Carolyn Grayson

January is the best time of the year to see what you've been missing at Hickory Creek WMA.

We have been privileged to be allowed to establish a trail system in this wildlife refuge. But for those who prefer the open range, riding is permitted off trail too.

There are several designated primitive campsites but Four Corners camp is the only one with a porta potty.

There is varied terrain. Trail 1 is scenic with rolling hills. Trail 2 is flat with sandy seasonally plowed/planted in rye/turnip strips. Trail 3 is challenging with ridges & climbs.

Our 1st Annual New Beginnings trail ride will be on **January 3rd & 4th**. With no leaves on the trees unique scenery will be visible. So bundle up to get your pony in shape for this new year!

Camping Friday & Saturday night! Come join us for campfire, food & fun at Four Corners Trailhead located at 6701 Black Gold Rd. Marietta Ok. We will ride out Saturday at 11am, with a potluck supper afterwards. Everyone is welcome.

A workday is planned for **January 18th**, meet at Four corners, bring loppers. With a rain date of January 25th if needed.

**February 15th** is a Valentines just for fun day ride. Will ride out @ 11am.

**Note for iPhone users:** Maps doesn't recognize 6701 Black Gold Rd, so follow these directions: From Marietta Ok go 1.5 miles east on State Hwy 32, 4 miles north on U.S. Hwy 77S, 1 mile east on Ironhorse Rd to the T intersection. Right onto Oilspring/Derrick Rd, go 3/4 mile south to the 2nd entrance at Black Gold Rd. Go east 1.5 miles to Four Corners Trailhead.

## Update on Culver Academy By Heather Pantalone

I, (the Editor) shared our newsletter with Heather so she could see the article I added to the December issue. Here is what she had to say:

Oh my goodness; it looks fabulous!! Thank you so much dear! We now have some AMAZING news!! The kids will all be riding in the **Presidential Inaugural Parade** again!! Yep, THE parade in Washington DC on January 20th! Again, this school is an absolute dream!

I noticed that the article states that people can “message me directly” since it was originally posted to Facebook. You are welcome to share my phone number if you wish and if you have an avenue to do so. 405-517-0109

Again, we thank you very much for sharing our information! 😊

I (the Editor) will share the links again as well, for anyone who may be interested:

## RIDE OKLAHOMA 2024 - A SUCCESS!

Our first Ride Oklahoma program has concluded and we had 20 participants. A few hiccups along the way but we figured it out! The cool part was – everyone got a prize.

We came up with tiers of prizes for each level. The top three winners in the platinum category received tote bags, key chains, iron on logos and the year plus prize category, and an OETRA mug. The whole idea came from our OETRA PR Committee to encourage OETRA members to ride Oklahoma trails, and get a bonus when you rode OETRA-affiliated trails.

I dropped the ball promoting the program and Julie Cameron picked it back up thankfully. Julie ended up winning the top two awards for most miles and most OETRA miles ridden in 2024. Kay Porter made this beautiful wooden plaque for Julie. Unfortunately, Julie was sick and didn't get to attend the Christmas party where the awards were given out.

Now start logging those miles (track your miles with an app or I use my Fitbit)! Anytime you ride your horse (it doesn't have to be on a trail), log your miles. Remember only Oklahoma-miles are counted. The program will conclude October 31, 2025. That gives us time to get the prizes ordered etc. We aren't going to do mail – just take a picture of your ride log or scan it in, and send picture of completed log sheet by Nov 5th to program coordinator, Julie Cameron, via Messenger or lazyjfarm2@gmail.com. Copy of the form is on page 9!

## SALT PLAINS STATE PARK

A wonderful new trail has been added at Salt Plains State Park near Jet Oklahoma. This new Section of Kat Track begins across the road from the South Sibley Trail Head.

It is wooded and is just a delightful single track. Originally located by former park manager and equestrian Katja Roshanson.

The trail was then cut by Boy Scouts from Tulsa. I apologize for not knowing their troop number.

A group of horse mounted volunteers worked on getting it cut to horse height. This newest trail brings us up to 15 miles of trail at Salt Plains State Park. We love having single track in addition to the wide mowed trails.

March 29 will be our Spring Fling Just for Fun ride. Hope to meet you there.
